[if !supportLists]2. [endif]look at the audit and see if there are any loose ends (I keep spotting them as we go – please feel free to bring any thoughts too) (45 mins)

[if !supportLists]3. [endif]Then see where this is taking us, perhaps with plan in front of us to suggest ideas as we go, particularly on how we link up these spaces with existing or new green links/corridors/walking& cycling paths etc., maybe with pens and post-its... (30 mins)

[if !supportLists]4. [endif]A look ahead to how we tackle the leisure/arts and sports pitch issues next time (5 mins)

[if !supportLists]5. [endif]Anything else on our minds

If you want to add or take anything form this, please say.

**This folder** includes docs showing

[if !supportLists]- [endif]our brief idea and heading – for short discussion.

[if !supportLists]- [endif]results of our green space audits – for discussion

[if !supportLists]- [endif]list of green spaces audited with pics – info

We can have a quick run through the audits – so please browse and raise any scoring that you disagree with. I have had to interpret some scores form comments. (I also marked intermediate scores down e.g. if we had scored 3-4, I have judged this as scoring 3.)
