

Dear all

Notes for OSL meeting 10th April 2015

Some couldn't get this to open so here is a smaller version.

Julie we missed your note-taking skills.

In summary of last night...

Headline aims

This is drafted

Vision statement

SWOT analysis

Group chairs now have a proforma for Working Group 'reports' and we will need to complete this ready for policy writers to action.

We are aiming to wrap up our current working group work at this stage i.e. by early May (2-4 weeks from now).

2. Open spaces

We agreed that we had a package of material to steer towards a policy. This includes:

The green space audit

Plan of green spaces to be conserved – possibly some to be allocated as 'Local Open Space'

A set of green links inc views, new links we would like, cycle improvements,

Ideas for new green spaces – 'Roundbury Parc' (the new green space area that Persimmon are due to provide under their S106 agreement for Addington on the fields opposite Trevecca cottages on the St Cleer Rd) and possibly Trevecca Cemetery extension (due to go onto the current rugby practice pitch on Culverland Rd when it is vacated in future). Need to capture this on drawings/plans.

Will need to add 'civic spaces' for improvement to our plans – Bay Tree Hill, Windsor Place/Barras St/Dean St roundabout shared space, cattle market (any others?)

A drop in with walkers and cyclists will be held on 23 April (or whatever day we can book a room for) for groups to give ideas and comments on emerging ideas.

Other consultees – children's/play groups – need to agree how/what this looks like.

3. Leisure and sport

Agreed this was weaker area on evidence other than consultation, but that the consultation voice was strongly felt. Policy might focus on 2 areas.

Arts: Felt that Liskerret renewal may be opportunity to provide a stronger arts centre space with flexibility for film, theatre and conference use and cattle market was ideal area to incorporate this as an anchor - possibly at the Varley Lane end of the cattle market site. (cited Tavistock wharf arts centre and the newer Penzance Exchange as possible models). Out of town or Luxstowe sites discounted as lacking synergy with other things in town and promote car use. Plan should indicate an arts/culture centre/hub at the cattle market and illustrate with 'mood board' like attached.

Sport – pitch provision should be incorporated into the Roundbury Parc idea (above). At the moment this is seen purely as pitch provision but enriching this experience with a park that might provide children's play/natural play and perhaps a café like the new National Trust Lanhydrock one would be hugely beneficial. This too could form part of changing rooms, park management, and a cycle hub for a 'round Liskeard' cycle trail and connect with the Caradon trail. Would need an operator, perhaps Duchy Nursery/ a local community company (e.g. those looking at taking on Minions Heritage centre). So sport becomes part of a wider leisure offer.

Lux Park – need to conserve site as leisure and sports centre use. Need to draw this onto plans and consult sports/leisure groups.

Drop in meeting 23 April

Room booking – Lorna (inc projector, screen and 2 flipcharts)

Invitations - Lorna and Malcolm

PR leaflet – Malcolm

Rolling powerpoint – David

Print couple of large plans – David

Other material – general info., feedback leaflets/cards? TBC

Next meeting Thurs 23 April- drop in for walkers/cycle groups. Lots of help needed - to discuss issues and ideas with people who come. Need one more meeting after this probably. Date TBC.

Regards
David
