

Draft questions for Wetherspoons building consultation

Wetherspoons have now bought the old Taylor's Garage site on Barras Street. We expect that they will be putting forward plans for building on the site

The Neighbourhood Plan Team want to meet Wetherspoons soon to let them know about local views on how the site should be built on and understand more about their plans

Please let us know what you think so we can pass this on to Wetherspoons

Please indicate how important each of the following are to you

Issue	Very important	Quite important	Not important	Don't know
The design includes some public space				
The design enables linkage to adjoining sites which might be developed later eg the Sorting Office carpark				
The design allows access to the Stuart House garden				
The building's height is in proportion with surrounding buildings.				
The building's style and building materials fit with surrounding buildings				
Other (please state) _____ _____				

Are there any other comments about the way the site is built on that you would like us to pass on to Wetherspoons

How to handle fact that many people will want to comment on whether a Wetherspoons is a good [?] or bad thing for Liskeard
